ABOUT ME

Hi, I'm a 3rd year student of Information Management majoring Information System with 3.6 GPA

I describes my self as an active, ambitious and sociable person. i like to motivate others and always eager to learn new things.

I'm really passionate about technology and also really want to become a Backend Developer.

Therefor, i have a high interest to learn all about server-side script programming language like PHP, Python, and many more language that take a lot of my attention.
